## PROJECTS

### 1. Spoorts.io

- It is a Multi-lingual AI agentic sports website that provides news about any sports being played at any country or city.
- **Url** - <https://spoorts.io/>

- **Languages**:- PHP, Python, JavaScript.
- **AI Platforms**:- Perplexity AI, Wakalaa AI, Chat GPT, Crew AI
- **Special features**:- Open AI, Google Custom Search, Redis, Geo location, Marketplace with various payment gateways like Paypal, Stripe, MTN, Pawapay.
- **DBMS** :- Mysql.
- **OS** :- Linux
- **Editor** :- Sublime.
- **About it** :- A multi-lingual sports website where user can create his own club, federation and page in 5 minutes and post his sports update. Apart from that, user can sell or buy products from marketplace. Admin has option to generate sports posts using AI. After adding city, country, sports category and language latest update by AI will be posted as a sports journalist.
- **Special feature** :- User can purchase tokens to generate information related to his club, team or player to fetch information according to his Prompt requirement.

## 2. Vocab Paris

- Its is a Multi-lingual ride booking App and Website divided into 3 parts (Rider, Driver and Organization)
- **Url** - <https://www.vocab.com/>
- **Language** :- PHP, Node JS, JavaScript.
- **Framework** :- Php, Node Js for Apis. Sockets for ride request to active Driver
- **DBMS** :- Mysql.
- **OS** :- Linux
